EDUCATION

University of Waterloo

Bachelor of Computer Science (Honours) - 4.0 Cumulative GPA

Waterloo, ON

Sept 2025 – Present

Wilfrid Laurier University

Bachelor of Business Administration (Honours) - 11 Cumulative GPA (12 point scale)

Waterloo, ON

Sept 2025 – Present

The Woodlands Secondary School

Highschool Ontario Secondary School Diploma - 98.5 Culmulative Average

Mississauga, ON

Sept 2021 – June 2025

EXPERIENCE

Incoming Technology Risk Management Consultant

EY Assurance

May 2026 – Present

Toronto, ON

- Support assessments of AI governance, risk, and control frameworks focusing on Responsible AI principles
- Assist in evaluating AI enabled systems and related controls as part of Technology Risk and Assurance engagements
- Contribute to documentation, risk reporting, and development of AI risk assessment tools supporting client recommendations and assurance deliverables

Mathematics Instructor

Mathnasium Inc.

March 2024 – December 2025

Mississauga, ON

- Facilitated and supported the learning of Gr. 1 -12 students build foundational math skills and with homework
- Successfully taught topics of functions, trigonometry, high school calculus, algebraic/geometric vectors, and beyond
- Engaged in learning sessions with students in person and online to offer a wider range of services

PROJECTS

Communico | *React Native, JavaScript, Gemini, OpenRouter, Elevenlabs, face-api.js* January 2026 – January 2026

- Developed a React Native augmented and alternative communications app for minimal to nonverbal speakers
- Added features such as picture-tile based sentence building, live transcription, drawing based sentiment analysis, text to speech, emotion detection, and AI suggestions
- Used Gemini API via OpenRouter to provide sentence/drawing analysis, face-api.js for emotion detection, and ElevenLabs to provide text-to-speech with embedded emotions
- Won **Best Accessibility Hack** at DeltaHacks 12

Derivative Hedging via Reinforcement Learning | *Python, Matplotlib, TensorFlow* November 2026 – Present

- Designed state spaces incorporating simulated price movements off Geometric Brownian Motion, Greeks, and portfolio exposure to inform agent decisions
- Evaluated agent performance against baseline hedging strategies using cumulative P&L and risk metrics
- Used Matplotlib dashboards to visualize price movements, training convergence, hedge ratios, and portfolio performance over time

Autonomous Magnetic Antifouling bot | *Arduino, C++, Fusion 360*

January 2023 – August 2025

- Created an autonomous magnetic robot prototype to solve the problem of biofouling on industrial vessels
- Used Fusion 360 to design entire chassis and cleaning system, 3D printed robot, used Arduino and open source materials to facilitate control
- **Won 2nd internationally** at the World Robotics Olympiad Future Innovators in Panama
- **Received \$1000 grant** presented by Ontario's Lieutenant Governor, Edith Dumont to continue development

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (Postgres), JavaScript/TypeScript, HTML/CSS, Racket

Frameworks: React, React Native, Node.js, Flask, FastAPI

Developer Tools: Git, GitHub, VS Code, Visual Studio, Jupyter Notebook, Cursor, Claude

Libraries: pandas, NumPy, Matplotlib, TensorFlow

Productivity Tools: MS365 Office Tools (Excel, Powerpoint, Words, Teams), Google Drive, Notion, Slack
